

Marex 310SC Sun Cruiser | 2018

POA

Fuel Type:	Diesel
Colour:	White
Engine Size:	370

The Marex 310 SC impresses with huge amounts of space, particularly in the wraparound cockpit seating which has enough space for 10 people around the table. The cockpit seating group can also be used as sun loungers for 3 people taking advantage of the sliding roof system to leave the boat completely open. There is plenty of accommodation below deck, there is a great feeling of space and natural light through the large hull windows. the front cabin has a large double bed and plenty of hanging space. The mid cabin is also a double with any amount of space and the large hull windows provide stunning views to wake up to. Between the two cabins is a large well finished bathroom with shower and electric toilet.

This is a safe and sociable boat protected by a very fast and simple canopy system. It closes by pulling the canopy from two side lockers like a curtain and a simple tab system to lock it in place. Two sliding sunroofs which can be operated by one hand makes this boat suitable for any weather.

Length: 9.46m

Beam : 3.22m

Depth : 0.97m
