Fairline Targa 65 GT | 2022

Characterised by Alberto Mancini's striking design language and Vripack's renowned naval architecture, the Targa 65 GT is a wonderful expression of design legacy with vision. Sharing the same striking appeal as the Targa 65 GTO, but offering more indoor space, you can socialise on a bigger scale in the extended saloon. This newest addition to the Targa range is a true symbol of its award-winning lineage. With British craftsmanship at its heart, the Targa 65 GT is the ideal place to fashionably entertain, from morning through to night. But it's also those personal moments where it shines. When you are the first to wake, with a coffee in hand. Being alone with your thoughts. Enjoying the space and silence. This is all yours. And it is a stunning place to be. Breakfast on the foredeck followed by underwater thrills on a pair of SEABOBs. Recognise the light touch of quality fabrics as you dry off in the afternoon sun. Configured to maximise life on board, including a large twin crew cabin, make the most of the Targa 65 GT's flexible interior, equipped with a master suite to rival all others.

Vehicle Features

Length: 65'; Hull Material: Fiberglass; Engine/Fuel Type:
