Aston Martin Belfast are delighted to offer for sale, this stunning Zagato Coupe finished in Ming Blue with a duotone Pure Black and Pearl White Leather interior. Showcasing the 6.0-litre V12 Naturally Aspirated Engine in it's most powerful variant was a fitting tribute to one of the industries longest standing partnerships. Andrea Zagato, CEO of Zagato said of the enduring creative partnership: "Zagato's relationship with Aston Martin began with my grandfather and the DB4 GT Zagato, almost sixty years ago. To have a creative 'marriage' thrive for three generations is something as unique as the cars themselves. My family name is associated with all kinds of wonderful designs, but for many enthusiasts and collectors around the world those that combine the Z of Zagato with the wings of Aston Martin are the most special. Collaborating closely on the design of four complimentary, yet completely different Vanquish Zagatos has been an incredibly exciting challenge. I'm proud to continue the story my grandfather started and thrilled that our partnership with Aston Martin continues to realise such exciting cars." Aston Martin Chief Creative Officer, Marek Reichman, said of the Vanquish Zagato family: "We haven't released Zagato models as a family before, at least not in this way, but the idea is not without precedent. Think back to the DB7 Zagato and DB AR1, or the V8 Zagato Coupe and Volante, for example. We've simply taken things a few steps further. Why create a family of Zagatos? Well, many of our customers want different things. Some prefer the purity of a Coupe, but others love the idea of something more extreme, like the Speedster. And yes, some of them have ordered one example of each. There's always an over-demand from our clients and patrons. We could easily fulfill

demand for more cars than this, but we want Zagato to remain something very special. We're creating collectibles, future concours cars. With only 325 cars worldwide, divided between 99 Coupes, 99 Volantes, 28 Speedsters and 99 Shooting Brakes - they are still the rarest of the rare."
