

Chieftain <Undefined> 220 Gallon (1000 Litres)

|

The smallest in our range at 220 gallon / 980 litre, Chieftain's UN approved bunded towable Fuel Bowser complies with all UN fuel transportation regulations and has full EU type approval.

Benefiting from being just less than 1000 litres, removing the need for an ADR license, this permits the safe and legal transportation of diesel on the open highway. The tough chassis and high speed twin axles ensure ease of towing for the driver, and with a lockable cabinet and ball hitch lock ensure a secure method of bringing fuel to and from site
