Fairline Targa 40 | 2024

Meet the latest addition to the Targa family, the brand new Targa 40. It lives up to everything you'd expect from the Targa range and then some. Our expert designers have embraced a bold exterior design direction, delivering a sophisticated and modern, yet sporty style to thrill a new generation. Its flowing design with a hardtop and electric canvas sunroof opens up the whole cockpit, making the area as sociable as possible. You'll seize the views and the warmth of the sun when taking advantage of the large sunbeds onboard with your guests. It boasts unrivalled usable space, and extensive glazing floods the interior with light. Whether inside or out, nothing interrupts those views of the ocean. As the day closes, hop in your tender housed in the integrated garage and head to the shore for the evening, before returning for more entertaining with your guests or the most peaceful sleep at anchor. The Targa 40 is ready to start tomorrow's adventure with the thrill of speed and precision handling. A beautifully proportioned and ergonomically designed helm puts the focus on technology. The latest Garmin touch-screen display enhances every bit of your experience on board the Targa 40
