Bentley Belfast are delighted to offer for sale this January 2018 registered Bentley Flying Spur with the iconic 6.0 Twin Turbo W12 engine - an opportunity to own a slice of British Heritage, to enjoy an engine that is envied by many and sadly is no longer in production to-day. You will absolutely love the sumptuous Diamond Quilted leather interior seats and door inserts that epitomise the Bentley marque, finished in the very traditional Linen and Beluga interior trim and matching Linen seat piping. The interior trim is Dark Burr Walnut and complimented with Chrome Inlay to the door waistrails. Electrically operated blinds for rear side windows and rear window are also included, as well as Veneered Picnic tables. There is also Bentley GPS Tracking fitted as well as a Digital TV Tuner. The exterior Royal Ebony is from the Extended Range Solid and Metallic, which is truly stunning and compliments the 21" Directional Black Sports alloy wheels. For the more technically minded there is also WiFi Hotspot 4G enabled, as well as for the more practically minded, the supply and fitting of a space saving spare wheel. Despite the exceptional specification and luxurious aspect of this Flying Spur, perhaps the most important is the wonderful W12 6.0 Twin Turbo engine - you will be enchanted by what's under the bonnet and a total pleasure to drive in town or the open road. At Bentley Belfast we have a selection of funding options available, as well as local airport collections encouraged, for customers coming in from the mainland. For your personalised video presentation, please call either Richard or Kieron on 028 9038 5759 and we will be delighted to discuss the merits of this wonderful W12
