1991 Daimler Double Six V12 Automatic ; The vehicle was imported from Japan September 2020.Has done 91000 kilometers[52,000 miles with history;2 owners, I purchased car in March 2022 with 2 damaged n/s doors got it professionally repaired[original doors repaired last photo shows damage].The vehicle is unleaded fuel from new and fitted with catalic convertors from new for export market.The vehicle has every Daimler extra of the time last of the best Daimler /Jaguars made Series 3.Vehicle must be viewed and driven to appreciate the quality and condition any inspection welcome.The car is totally as new inside and out; I would give it 9 out of 10 for condition reason not 10 out of 10 just because it has been damaged.I believe the best V12 Double six for sale in U.K. Has been in storage and has current mot to 22/09/2024 .Just had full service and new hood liner fitted.These cars are now becoming very rare and are only going to increase in value a true classic. As being in Japan for 29 years it is totally mint [never welded never painted

other than bottoms of 2 n/s doors].For any more information
