Over 600 (£117 p/a)

New Yamaha XSR 900 ABS (25MY)

Available to view Charles Hurst Yamaha, 62 Boucher Road Belfast.

Don't be fooled by the timeless good looks of the XSR900, because underneath that 80s race bike look there's some serious high-performance technology. Not only does it come with the smooth EU5+ 890cc CP3 engine with a ton of torque, but it's also fitted with a lightweight Deltabox-style chassis with Brembo radial master cylinder, lightweight Spinforged wheels and fully adjustable suspension (revised linkage for more progressivity).

The XSR900 is proof of the Faster Sons philosophy in action. Taking its design inspiration from some of the most iconic bikes of Yamaha's past, this high-performance motorcycle is the result of decades of intensive research and development.
