Ami epitomises Citroën's legacy of pioneering automotive innovation. Much like the iconic 2CV revolutionised transportation, Ami introduces affordable quadricycle mobility to today's world, making it ideal for modern urban journeys. Charging Ami couldn't be simpler, just unroll the built-in charging cable, found behind the passenger door, connect up the Type 2 adapter and plug in for a full charge in just four hours*Charge your Ami at home, at work or using the UK's public charging network thanks to Ami's ability to charge via a Type 2 charger. Affordability: Starting at around £7,695, the Ami is significantly cheaper than most new cars in the UK. Compact Design: Its small size (2.41m long) makes it easy to park and navigate tight urban spaces. Electric Powertrain: It's powered by a 6.3 kWh battery, providing a range of up to 46 miles (WMTC) and charges in 4 hours. Low Running Costs: Charging at home is inexpensive, with the potential for running costs to be less than a monthly bus fare. Driving Licence Requirements: The Ami can be driven by those with a moped licence or a full Category B (car) licence. Urban Focus: The Ami is best suited for city driving due to its limited range and top speed (28 mph). Customization: Various trim levels and color packs are available to personalize the Ami. Practicality: Despite its compact size, the Ami offers surprisingly useful interior space, including 63 liters of boot space. Versatility: The Ami can be used for personal transportation or even as a small business vehicle like the Ami Cargo with a single seat. Give us a call to arrange your test drive today or to simply discuss our range of bespoke finance options
